THE RECENT PRUSSIAN DUEL. Baron von Schrader, master of ceremonies at the Prussian Court, died at Potsdam on Saturday; his death being the result of injuries inflicted by Count von Kotze, formerly one of the court chamberlains, during a duel fought in the vicinity of Neus Palaisat, Potsdam. Baron von Schrader was severely wounded in the abdomen at the time of the meeting on the field of honor, and his recovery from the injuries received were considered from the first doubtful if not impossible. The death of Baron von Schrader will undoubtedly go a long ways towards reviving the great court anonymous letter scandals which for years have furnished Germany and in fact all Europe with a series of start-ling sensations. The arrest of Count von Kotze for participating in the duel with Baron von Schrader has already been ordered, and be has announced his willingness to surrender to the author ties. It is also stated that the affair would be seized upon by the liberals as an opportunity for making an in-terpellation in the Reichstag; the claim being made that the authorities knew well that the duel was about to take place, but refused to interfere. If the matter is given an airing in the German parliament as well as in the courts the names of persons high in social and political life in Germany, in fact of royalty itself, cannot be kept out of the

The story of the arrest of Count von Kotze and of his imprisonment on the charge of writing letters over the sig-natures of "Wer ben ech" (who am I) accusing the emperor of immorality; the account of the loss of the diary of Princess Charlotte of Saxe-Meiningen, the eldest sister of the emperor; flight from Berlin of Dr. Fritz Fried-man, the counsel for Von Kotze during his eventful trial, have all been told. After Von Kotze's imprisonment, these anonymous letters were still received by royal personages, and this taken in connection with other circumstances led to the release of the imprisoned count. The tribunal recently threw out of court a suit for slander which Von Kotze brought against Von Schrader. This suit followed immediately after the first of the duels between Baron Von Schrader and Count Von Kotze in which both combatants re-ceived flesh wounds. The officers of the two regiments of cavalry with which the baron and Count Von Kotze are connected, after having constituted themselves into courts of honor and duly investigated the charges of slander which Von Kotze brought against Von Schrader, decided that Von Schrader was entitled to an acquittal. More than this, they declar-

ed that Von Schrader was justified in his remarks, and they appealed to the emperor to dismiss Von Kotze from the army. This verdict of the courts of honor was endorsed by Prince Fred-erick, of Hobenzollern, the command-er-in chief of the garrison of Berlin. Emperor William, however, declined to ratify this verdict. Prince Frederick, accordingly, resigned his command, removing to Bavaria and stating that he could no longer asso-ciate with Count Von Kotze. Other members of the nobility followed his example and there was a general ex-odus of princes from Berlin. Naturally under the circumstances, interest will be centered in the punishment to be meted out to Count Von Kotze because of his duel with Baron Schrader and because of the death of the master of ceremonies at the Prus-

sian court. Marvelous Results.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with pnemonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly sat-isfactory in results." Trial bottles free at Ernest L. Allen's Drug Store. Regular size 50c and \$1.
